

ABOUT US

We are a team of engineers with many years of experience in the field of industrial automation. We have started our business over 20 years ago by providing components and devices in the field of refrigeration and industrial automation as an authorised distribution centre of Danfoss.

The range of our offer over time has been expanded to including industrial devices for measurement of flow, level, physicochemical analysis, industrial pumps and actuator technology. In order to meet the needs of our customers, we have also expanded our business to include designing and implementation of systems for controlling and visualisation (SCADA) for industrial processes.

Thanks to that, we are able to support our customers at every step of project implementation. Our experience of many years is based on complex implementations in fields like: marine industry, water and sewer management and chemical industry. Many customers have put their trust in us, among which we will find big corporations and small and medium local companies, including:

REMONTOWA SHIPREPAIR YARD, CRIST, PGZ Stocznia Wojenna, Stocznia Remontowa Nauta, UNILEVER, Grupa Azoty FOSFORY, KSB, Wodociągi Gdańskie, PEWIK Gdynia, PEKUM, ENERGA GRUPA ORLEN, FAKO, SCHMID POLSKA...

RANGE OF SERVICES

We select and complete:

- devices for measuring pressure, temperature, flow, level, physicochemical analysis and also electrovalves, pressure switches and thermostats;
- frequency transducers and devices for soft start-up of asynchronous electric engines;
- control systems based on industrial PLC/PAC controllers and HMI panels;
- switchgear and power distribution systems;
- safety systems based on relays and programmable controllers.

Maintenance service

Within our scope of implementation we also provide service of support after the purchase and maintenance service for automation systems and devices within an area of actuator technology, while we always provide professional advice..

We provide

- technical designs and control systems of industrial processes;
- prefabrication and assembly of panels for control and power supply;
- programming industrial PLC/PAC controllers and HMI operator panels;
- systems of visualisation of industrial processes (SCADA);
- industrial electric systems, electrical measurements and thermovision;
- assembly and start-up of technological equipment, including measurement and control equipment (MCE).

- **Industrial automation**
- **Refrigeration**
- **Drives technology**
- **Physico-chemical measurements and analysis**
- **Marine and shipbuilding industry**
- **Water and sewer management**
- **Chemical industry**
- **Food industry**

You are welcome to contact us!

ENGINEERING
TOMORROW

AUTHORISED DISTRIBUTOR

COMPONENTS OF INDUSTRIAL AUTOMATION

- Pressure transducers
- Temperature sensors
- Position sensors
- Pressure switches, thermostats, switches
- Electromagnetic valves
- Thermostatic valves
- Valves controlled pneumatically

Danfoss

tork

PRIGNITZ G
MIKROSYSTEMTECHNIK

FantiniCosmi

PHYSICOCHEMICAL ANALYSIS

- Analytical sensors and measurement systems for measurements of e.g.: pH, redox, conductivity, haziness, oxygen, sediment, disinfectant agents
- Controlling and actuating modules
- Analytical assemblies
- Analytical transducers
- Analytical accessories

ABB

KROHNE

WTW
a xylem brand

DRIVES TECHNOLOGY

- Low voltage frequency converters
- Medium voltage frequency converters
- Decentralised frequency converters
- Module systems
- Active and passive filters limiting THDi
- Movement controllers, servomotors and geared motors, soft starters

Danfoss

VAGON

ABB

LEVEL MEASUREMENT

- Vibration, capacitive, microwave and conduction indicators
- Radar probes
- Ultrasound probes
- Hydrostatic probes
- Radiometric measurement

ABB

KROHNE

PRIGNITZ G
MIKROSYSTEMTECHNIK

SIEMENS

INDUSTRIAL REFRIGERATION

- Expansion, check, shut-off, safety, block, regulation and electromagnetic valves
- Filters
- Inspection openings
- Pressure switches and thermostats
- Compressors and condensing units
- Programmable controllers
- Components and repair kits

Danfoss

FLOW MEASUREMENT

- Electromagnetic flow meters
- Coriolis mass flow meters
- Ultrasound flow meters
- Rotameter flow meters
- Pressure difference flow meters
- Vortex flow meters

ABB

KROHNE

SIEMENS

INDUSTRIAL PUMPS

- Industrial, dosing and special pumps
- Regulation and overflow valves
- Filters
- Burner, water and industrial nozzles
- Generators and pressure accumulators
- High pressure pumps
